- ❖ Responsive Web Design

- ❖ CesiumJS, Google Maps Platform

Mobile

- ❖ React Native (CLI & Expo)
- ❖ Native Base / gluestack-ui
- ❖ Android & iOS Deployment

State & Data

- ❖ Redux
- ❖ REST API Integration
- ❖ WebSocket

Tools & Platforms

- ❖ Git, GitHub, GitLab
- ❖ Visual Studio Code
- ❖ Android Studio
- ❖ Xcode
- ❖ Postman / Bruno

WORK EXPERIENCE

PT. Persada Raya Sentosa – Frontend & Mobile Apps Developer

Sep 2024 – Present | Freelance

- Developed an integrated sales monitoring dashboard connected to multiple POS systems, providing real-time insights into transactions and sales performance.
- Built an application capable of printing transaction receipts using thermal printers.
- Contributed to the development of a modern GIS solution supporting digital mapping and urban visualization for Bekasi City.
- Integrated Google Street View and Mapillary APIs to enable immersive street-level exploration within the geospatial platform.

Achievements:

- ☑ Improved sales visibility by implementing a real-time POS monitoring dashboard.
- ☑ Increased operational efficiency through reliable thermal printer integration.
- ☑ Successfully delivered an interactive 3D geospatial platform that improved spatial data visualization and accessibility for users.

DRX Asia – Frontend & Mobile Apps Developer

Feb 2024 – May 2025 | Full Time · Hybrid

- Built a modern, responsive landing page for a DRX Token and ensuring high performance and SEO optimization.
- Designed and developed a sports network mobile app DRX Sportnet using React Native.
- Published the application on Google Play Store and Apple App Store.
- Created multiple Telegram Mini Apps using React and Telegram WebApp SDK for community engagement.

Achievements:

- ☑ DRX SPORTNET achieved a 4.2-star rating with 12,000+ downloads on Google Play and 4.8-star rating with 3,000+ downloads on the App Store.
 - ☑ Optimized the DRX Sportnet app, resulting in improved performance and user satisfaction.
 - ☑ Rebuilt the DRX Token website, significantly increasing overall visitor traffic.
-

PT. Arenvy Teknologi Marketing – Frontend Developer**Sep 2023 – Sep 2024 | Freelance · Remote**

- Developed the Arenvy company website to promote business partnerships.
- Built an E-commerce platform AngeloSkin for beauty and cosmetic product sales.
- Created a web-based CMS to manage products, orders, and promotional campaigns.

Achievements:

- ☑ Successfully integrated backend services with frontend UI components.
 - ☑ Implemented a product promotion system that improved conversion and engagement rates.
-

PT. Sistem Manajemen Dewarangga – Frontend & Mobile Apps Developer**Mar 2023 – Aug 2023 | Full Time · Remote**

- Developed a warehouse management dashboard Gamma Elektrik to monitor inventory flow.
- Built a mobile E-commerce app KlinikCafe24 for café supply ordering using React Native.
- Created a CMS dashboard to manage products, orders, and transactions efficiently.

Achievements:

- ☑ The warehouse dashboard was successfully deployed and adopted by all warehouse staff.

- ☑ KlinikCafe24 mobile app gained consistent users and facilitated real-time order tracking and checkout.
-

PT. Duhans Technology – Frontend & Mobile Apps Developer

May 2021 – May 2022 | Full Time · On-site

- Developed IoT-based web and mobile apps for monitoring water and hydroponic plants.
- Built a Smarthome mobile app to control home devices.
- Developed DiCheck, an employee attendance and activity monitoring app.

Achievements:

- ☑ Successfully integrated IoT systems into web and mobile platforms for real-time monitoring.
 - ☑ Implemented Smarthome functionality across multiple electronic devices.
 - ☑ Fixed numerous bugs and improved overall app performance and reliability.
-

INTERNSHIP

PT. Duhans Technology – Frontend Developer Intern

Feb 2021 – Apr 2021 | Full Time · On-site

- Developed a landing page and an order management web app (Humanifood) for restaurant operations.
- Integrated real-time socket connections to manage restaurant orders efficiently.

Achievements:

- ☑ Successfully digitalized Humanifood's catering service through web technology.
- ☑ Enabled live order tracking and kitchen workflow optimization via real-time updates.
